About Me

I am a BSIT student and aspiring Frontend Developer with an interest in creating clean, responsive, and user-friendly websites. I work with HTML, CSS, and JavaScript and enjoy building practical web projects. I am continuously improving my development skills and learning modern web technologies.

Education

Bachelor of Science in Information Technology (BSIT)

Baba Guru Nanak University

Session: 2025 - 2029

Technical Skills

- HTML5
- CSS3
- JavaScript
- C++

- Object Oriented Programming (OOP)
- Responsive Web Design
- Git & GitHub
- Visual Studio Code
- Frontend Development
- Microsoft office (Word, PowerPoint, Excel)

Projects

Calculator Project

- Built a responsive calculator using HTML, CSS, and JavaScript.
- Implemented basic calculations, dark mode, and history features.
- Improved user interaction through clean design and JavaScript functionally.

Portfolio Website

- Created a personal portfolio website to showcase skills, projects, and contact information.
- Designed a responsive layout using HTML and CSS.
- Added professional sections including About, Skills, Projects, Resume and Contact.

Learning & Experience

Frontend Development Internship - CodeAlpha

- Worked on frontend projects using HTML, CSS, and JavaScript.
- Practiced responsive design and project deployment using GitHub.
- Improved problem-solving skills through practical web development tasks.

Goals

To improve my frontend development skills and build modern web applications with clean and efficient code. I aim to learn new technologies and grow as a professional web developer.
